## Technology News

### Dealing with Digital Distractions

Students trying to do school work can find themselves distracted by many things -- the television, their siblings, a sunny day. They also find themselves distracted by the same tools they are expected to do their school work on -- their digital devices. How can these digital distractions be managed so kids can be productive? There are a few keys to this, including helping kids recognize when they are being distracted and finding and using tools that will help minimize distractions they can encounter while using a computer or phone. [Here's a great article that offers strategies for helping kids manage digital distractions!](#)

### ***FROM JOLIET AREA COMMUNITY HOSPICE***

Has your family experienced the loss of a loved one? Is your child questioning the “why” of death? We have a summer camp available for **children 7-13 who have experienced the death of a loved one**. Campers come from our hospice families as well as families in the community who have had a death. Camp is a safe place for children to bond and understand the roller coaster of emotions someone feels when a loved one dies. Coping skills will be shared and fun camp activities, such as arts, crafts, swimming, yoga, sports and more, will fill the day.

**PRE-REGISTRATION is required.** Contact Mary Ann Burns, Director of Bereavement at [815-740-3282](tel:815-740-3282) or e-mail her at [mburns@joliethospice.org](mailto:mburns@joliethospice.org)

**There is no charge to families for camp.**
